

SAARC AGRICULTURE CENTRE (SAC)

Ref. SAC.No. 52/06-II/13/86

23 June 2013

To: Addressee in email

Subject: Recent SAC publications

Dear All,

SAARC Agriculture Centre (SAC) as a regional centre for agriculture research and development initiated series of regional studies and consultations on emerging issues impeding agricultural development. The efforts have resulted in publication of 16 manuscripts which are of relevance to agricultural researchers, extensionists, policy makers and farmers as well.

We have uploaded the documents in SAC website www.saarcagri.org and can be accessed and downloaded free of cost from

http://saarcagri.org/index.php?option=com_abook&view=category&id=2%3Atechnical-publications&Itemid=246

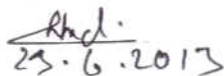

This is in addition to the publication of SAARC Journal of Agriculture which can be accessed online via

http://saarcagri.org/index.php?option=com_abook&view=category&id=11&Itemid=247

We are certain that both sets of publication will be a relevant reference material in enhancing better understanding and taking forward the agriculture in SAARC region.

We will appreciate to receive any comments, views and suggestions in improving our publication.

Sincerely Yours,

23.6.2013
Dr. Abul Kalam Azad
Director

SAC Publications for 2011-12
